

Poor Tommy.—Teacher—What is the matter with you to-day, Tommy? You seem to be nervous and uneasy.  
Tommy—I am. Yesterday was my pa and ma's wooden weddin' and nearly all the neighbors sent 'em shingles.—Chicago News.

A STANDARD BOOK ON AN IMPORTANT SUBJECT.

**“The Railroad Question,”**

By WILLIAM LARRABEE (Late Governor of Iowa.)

12mo., Cloth extra, (488 pages), prepaid ..... \$1.50  
Popular (paper) edition ..... 50c

A CLASSIC ON THIS GREAT PROBLEM.

I.—History of Transportation. II.—The History of Railroads. III.—History of Railroads in the United States. IV.—Monopoly in Transportation. V.—Railroad Abuses. VI.—Stock and Bond Inflation. VII.—Combinations. VIII. Railroads in Politics. IX.—X.—Railroad literature. XI.—Railroads and Railroad Legislation in Iowa. XII.—The Inter-State Commerce. XIII.—The Rate Question. XIV.—Remedies. APPENDIX.—Tables and Statistics. There is also a bibliography on the subject of Railroads, embracing ninety-eight titles, and a carefully prepared alphabetical index.

“In point of authenticity the book is absolutely to be relied upon.”—St. Louis Post-Dispatch.

“Governor Larrabee came to Iowa before any railroad had reached the Mississippi. Engaging in manufacturing, the inconveniences which he suffered from want of transportation facilities instilled liberal opinions concerning railroads. He made private donations to new roads and he advocated public aid to them. As a legislator he introduced a bill authorizing a 5 per cent. tax in aid of railroad construction. He believed that the common law and competition could be relied upon to correct abuses and to solve the rate problem. It has not been until since these efforts were made that he has become convinced, as he says in his preface, that ‘where combination is possible competition is impossible.’ The object of this work is explained to be to set forth the objections which lie against the management of railroads as private property. They are used by their managers for speculative purposes. They cannot perform their proper functions so long as they are used only for the interests of their stockholders. In order to serve their real purpose, they must become in fact what they are in theory, highways to be controlled by the government as thoroughly and effectively as the common road, the turnpike and the ferry, the postoffice and the custom-house.”—Council Bluffs Nonpareil.

**SPECIAL OFFER.** We have made arrangements by which we are able to offer our readers the CLOTH-BOUND edition of this great book for only forty cents, postpaid. Take advantage of this, as it is limited, and the regular price of \$1.50 will be in force again as soon as the supply secured for this purpose is exhausted.
